

HAMZA AKRAM

Depalpur, Okara, Pakistan | 0308-8861737 | hamzasworkspace1@gmail.com | linkedin.com/in/hamzaakram786 | [Portfolio](#)

Professional Summary

Recently graduated with a BSIT from the University of Okara, achieving the highest marks in the Final Year Project. Full-stack developer with professional internship experience at Innowi Global and multiple shipped production-grade projects — including Nexus, a real-time SaaS whiteboard platform. Actively deepening problem-solving foundations through Data Structures & Algorithms in C++ and integrating AI-assisted tools into modern development workflows.

Education

Bachelor of Science in Information Technology

Dec 2022 – Jun 2026

University of Okara · Renala Khurd, Okara · Highest FYP Marks — Batch of 2022–2026

Coursework: Data Structures, Algorithms, Database Management, Software Engineering, Computer Architecture

Experience

Web Development Intern — Innowi Global

Lahore, Pakistan · Jun 2025 – Aug 2025

- Built responsive UI components with React.js and Tailwind CSS; integrated RESTful APIs across 3 key product features, improving interactivity and reducing design-to-code turnaround by ~20%.
- Participated in daily stand-ups and code reviews within an Agile team of 6, managing feature branches with Git throughout the sprint cycle.
- Optimised legacy components for performance, achieving measurably faster load times on low-bandwidth connections.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, C++, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js (App Router), Node.js, Express.js, Framer Motion, Tailwind CSS

Real-Time & Auth: Liveblocks, WebRTC, Better Auth, Google OAuth, JWT, REST APIs

Databases & DevOps: MongoDB, PostgreSQL, Git, GitHub, Vercel

AI & Dev Tools: GitHub Copilot, Claude (Anthropic), Google Gemini, Cursor, VS Code

Practising: Data Structures & Algorithms in C++ — 3+ months (arrays, linked lists, stacks, trees, recursion)

Projects

Nexus — Real-Time Collaborative Whiteboard SaaS · Next.js, TypeScript, Liveblocks, WebRTC, Better Auth, tldraw, Framer Motion

2025–2026

Final Year Project · Highest Marks · Deployed on Vercel

- Architected a full SaaS collaborative whiteboard platform (inspired by Miro/FigJam) with multi-user real-time canvas sync via Liveblocks and peer-to-peer voice chat over WebRTC.
- Built complete auth system with Better Auth and Google OAuth — protected routes, session management, and role-based access — plus user dashboard, shareable board links, and settings page.
- Integrated tldraw as the canvas engine with Framer Motion animations across onboarding and dashboard, delivering a polished end-to-end SaaS product experience.

Portfolio Website · *Next.js, TypeScript, Framer Motion, Tailwind CSS* *2026*

- Built and deployed a personal portfolio with scroll-triggered animations (Framer Motion), SEO-optimised static pages via Next.js App Router, and a fully responsive layout on Vercel.

Subscription Tracker API · *Node.js, Express.js, MongoDB* *Feb 2026*

- Engineered a production-ready RESTful API with full CRUD, JWT authentication, bcrypt hashing, and a scalable MongoDB schema for managing recurring user subscriptions.

Leadership & Activities

Class Representative — **University of Okara** *2022 – 2026*

- Served as primary liaison between faculty and 50+ students; organised academic workshops, seminars, and resolved student grievances through collaboration with administration.
